Our Mission & Values

MDC is *the* industry leader that other companies aspire to be.

Our employees are our greatest asset, and that truth guides our culture and our company mission: ***To be so good that our customers cannot imagine doing business without us.***

MDC puts that mission into practice daily to help clients solve their most critical financial, budgetary, and resource management challenges. This allows them to achieve sustainable success uniquely tailored to their individual environment.

Do the right thing because it is the right thing to do

Excellence is a standard, not an option

Together we can do more

Success lies in our ability to learn from mistakes

Believe that you can make a difference

Our Solutions

Financial Accounting & Management

MDC's team of financial experts excels in budget execution and accounting operations. We focus on the budget and the range of legislative and regulatory requirements related to the use of and accountability for appropriations valued over \$17B annually.

Program Management

MDC provides comprehensive program management support for Federal clients. Our team of qualified professionals is responsible for all aspects of project management, including cost, schedule, performance, resources, risk identification, quality management, compliance, and communication. We utilize our best-practice methodology and hands-on experience managing various programs which include:

- Project management support for the Military Health System (MHS) consolidation and transition effort
- General Fund Enterprise Business System (GFEBS) deployment across the MHS

Governance & Policy

Through our growing engagements, we have developed a set of reliable, repeatable, and verifiable business processes to effectively deliver solutions for our customers.

MDC's approach emphasizes the "As Is" and "To Be" process when business process re-engineering is required. MDC has led several efforts to create a governance framework that links business structure or organizational decision processes.

Data Analytics

MDC designs and builds executive level analytics dashboards, which are used to assist our customers with tactical and long-range planning and decision making. We leverage financial, logistical, and clinical client data sets to serve as the foundation.

We develop data visualizations based on predictive analytics. Our tools facilitate data reconciliation and data-driven decisions at all levels.

IT Strategy & Operations

Our subject matter experts serve as On-site Support (OSS) and Help Desk to provide day-to-day insights and solutions to integration, implementation, deployment, and post-deployment challenges. Our strengths include:

- Provide direct support, including both over-the-shoulder and virtual
- Governance, Risk, and Compliance (GRC)
- Provisioning
- Triage tickets for appropriate GFEBS Tier 1 through Tier 3 support
- Training, Job Aid, and Business Process flows development

Our Results

Defense Health Agency (DHA) Financial Operations Support Contract

MDC leads the full spectrum of financial operations for the DHA, and supports all the Department of Defense Military Treatment Facilities (MTFs) world-wide, with an annual combined operating budget in excess of \$17B. The team provides functional support in Budget Execution, Funds Control, Financial Analysis, Accounting Operations, Programming, and Fiscal Policy & Compliance.

“MDC personnel have been professional and committed to mutual success. They have been responsive and committed to our requirements.”

—Director, ASD HA - Health Affairs Functional Champion, Defense Health Agency

Assistant Secretary of Defense for Health Affairs GFEBs Deployment Support Contract

MDC is leading the deployment efforts for DHA Enterprise as they transition from legacy financial and logistics systems to the General Fund Enterprise Business System (GFEBs) and Automated Time Attendance and Production System (ATAAPS). This resulted in transitioning over 4,000 end users globally, and over 10,000 DoD civilians to date.

DHA MHS Transition Support Contract

MDC is an integral component supporting the ongoing MHS enterprise consolidation and transformation efforts. MDC is developing and implementing standardized business processes that can be applied across the MHS Enterprise and is working to develop capabilities to support Planning, Programming, Budgeting, and Execution (PPBE) requirements to enable the DHA to assume authority, direction, and control of 132 Military Treatment Facilities.

“[MDC] built, reorganized, and cleaned up the HQ financial programs literally from scratch...we now can provide the Director of the Agency a true financial picture.”

— Chief, DHA Financial Operations Division, Defense Health Agency

Our Results

DHA Military Health System Help Desk Support

MDC leads the Global Help Desk providing technical support for GFEBS, ATAAPs, and DAI, via technical on-site support, and virtual helpdesk support. Our team also develops standard operating procedures, and creates and provides end user training to all end users across the Military Health System.

National Capital Region Medical Directorate Lifecycle Logistics Management Support

MDC provides Program Management support for logistic lifecycle management and risk management framework for the IM/IT systems for all NCR MD activities.

“[MDC’s] brilliant analysis and pragmatic approach to reducing budget deficits was truly innovative and defined the requirements that need to be resourced for the market. For the first time in a long time, the NCR will have defined funded programs that won’t rely on additional end-of-year dollars at DHA or the generosity of excess cash from the services.”

Marvin Davis is the founder and CEO of MD Consulting, LLC (MDC). As a retired US Army veteran, Marvin proudly spent 20 years serving as both an enlisted Combat Medic and a commissioned Healthcare Comptroller officer. Throughout his service, he witnessed first-hand the direct impact of leadership and discovered that leading others was a privilege.

Antoine (Tony) Azar is a senior executive and industry thought leader with over 25 years of experience within the federal government space, including the Defense, Federal Civilian, Healthcare, and Homeland Security markets.

Bart Rowe brings to MDC more than 36 years of accounting and financial management experience.

Serving as the Chief Financial Officer, Bart is directly responsible for overseeing the day-to-day financial operations at MDC to help guide internal decisions and maintain business efficiency.

Yolanda Mack is a trusted, accomplished leader who brings more than 20 years of industry experience within the service delivery, financial management, program management, and healthcare administration markets for both the Defense and Private Sector.
