Executive Director for Business Operations, National Capital Region Medical Directorate

"[MDCs] brilliant analysis and pragmatic approach to reducing budget deficits was truly innovative and defined the requirements that need to be resourced for the market. For the first time in a long time, the NCR will have defined funded programs that won't rely on additional end-of-year dollars at DHA or the generosity of excess cash from the services."

Case Study

Optimizing Financial Management with Expert GFEBS Support

MDC Global Solutions LLC, provides specialized enterprise service desk support to enhance the use of the General Fund Enterprise Business System (GFEBS). Over the last seven years, MDC has offered a range of tailored services to more than **1,200** end users which include on-site support, issue resolution, and user training to address challenges during post transition from legacy systems to GFEBS.

The government transitioned their legacy financial system to GFEBS an SAP ERP Platform. This required the need to train the workforce on new financial management business processes.

Enhanced system functionality, improved ticket management by implementing ServiceNow, and continuously refined GFEBS operations. This allowed us to provide post deployment end user support, managing nearly **5,000** GFEBS tickets in ServiceNow and provided **153** successful training workshops to **2,300** DHA personnel.

Improved user experience: We've effectively addressed issue resolution of over **4,800** cases.

Increased productivity: Supported of over **1,200** users annually and consistently maintained high productivity levels, resolving over **85%**

Case Study

How MDC Transformed DHA FOD's IT Service Management with ServiceNow Deployment

The Defense Health Agency (DHA) Financial Operations Division (FOD) leverages ServiceNow for essential IT service management and operational support. This platform enhances efficiency by streamlining workflows and providing real-time support, allowing DHA FOD personnel to promptly address technical and operational challenges, ultimately improving healthcare support services.

DHA FOD faced challenges expanding IT services due to inefficient manual processes for managing service requests and incidents. To enhance operations, improve service delivery, and meet federal regulations, a scalable solution was needed.

We successfully identified and provided deployment support for ServiceNow, enabling effective management of all financial business functions and payroll for the entire Military Health System workforce, which covers over **140,000** civilian employees.

Incident Management: Managed over **13,000** incidents, ensuring prompt resolution.
Case Management: Handled over **9,000** cases, enhancing operational efficiency.
Knowledge Management: Created **485** knowledge articles, promoting continuous learning.
